Consultation and Coordination

PUBLIC AND AGENCY INVOLVEMENT

A public scoping session was held at the Museum at 7:00 pm on June 14, 2000. In addition, numerous working meetings were held by Museum and NPS staff during scoping and the subsequent development of draft alternatives and assessment of impacts. Those meetings involved NPS park programming and operations staff as well as cultural resource specialists from both the local parks and NPS regional offices.

The SHPO and the Advisory Council for Historic Preservation were notified of this planning process at the outset of public scoping. The U.S. Fish and Wildlife Service and the New York State Division of Fish, Wildlife and Marine Resources were contacted to determine the possibility of any impact upon threatened or endangered species. Copies of those letters and responses to them are provided in Appendix B.
